

Simulation Facilitation and Debriefing Program

Non-Cleveland Clinic Caregivers

Required Prerequisite Online Learning

Simulation Educator Workshop is the capstone course of the **Simulation Facilitation and Debriefing Program** and is available for non-Cleveland Clinic caregivers to register.* All workshop attendees are required to take asynchronous online modules prior to registration. Online content includes: Introduction to Simulation, Adult and Experiential Learning Theories and Best Practices in Briefing and Preparation, Facilitation, Debriefing and Simulation-Based Education.

**Registration fee applies*

Two-day Onsite Workshop

The standard two-day in-person workshop includes:

- Application of fundamentals of debriefing
- Facilitation of practice with real-time feedback
- Question structure and application
- Dissecting the elements in the Debriefing Assessment in Simulation Healthcare (DASH) tool
- Attention to scenario design
