

Heart and Vascular Institute Educational Opportunities

Grand Rounds

A CME-approved presentation that provides an opportunity to learn from leading medical and surgical experts, sharing the latest advancements and innovation in the diagnosis, treatment plan/ procedures and prevention of cardiovascular disease.

Tall Rounds

This CME-approved program provides a 360-degree view of the considerations and decision-making involved in the care of patients with complex cardiovascular conditions. Each session is based on a real-world case, and participants gain practical clinical perspectives from a series of brief presentations from experts across a range of medical and surgical subspecialties. A lively panel discussion follows, expanding on the multidisciplinary approach that drew on the intersection of diverse areas of expertise to solve the case's clinical challenges.

2019 Curriculum

January	
9	Grand Rounds: Stephen Little, MD "Patient-specific Modeling for Structural Heart interventions: At the Crossroads of Imaging and Innovation"
16	Tall Rounds: Treating Bicuspid Aortic Valve Disorder
30	Grand Rounds: Sotirios Tsimikas, MD "Current and Future Care of the Patient with Elevated Lp(a)"
February	
13	Tall Rounds: Multidisciplinary Rescue from Complications after Transcatheter Procedures
March	
13	Grand Rounds: Jeroen Bax, MD "Imaging to Select Patients for Transcatheter Heart Valve Therapy"
27	Grand Rounds: Jeffery W. Kelly, PhD "Small Molecule Restoration of Protein Homeostasis in Degenerative Diseases"
April	
3	Tall Rounds: Mesenteric Ischemia after Open Heart Surgery
24	Grand Rounds: Frank Sacks, MD "HDL Subspeciation: A Paradigm Linking Metabolism, Intervention and CHD"
May	
8	Tall Rounds: Cardiac Sarcoidosis: Systematic Team Approach to Diagnosis and Management
22	Grand Rounds: William Stevenson, MD "Challenges of Ischemic VT: Where have we come from and where are we going?"
29	Grand Rounds: US Surgeon General, Jerome Adams MD, MPH "Opioid Epidemic"
June	
12	Grand Rounds: Stavros V. Konstantinides MD "Risk-adjusted Management of Acute Pulmonary Embolism: Unanswered Questions and Challenges for the Next Decade"
19	Tall Rounds: Multidisciplinary Management of Acute Aortic Syndromes: Type B Dissection
21	Grand Rounds: David Adams, MD "Seeking Excellence in Degenerative Mitral Valve Disease"
26	Grand Rounds: Dr. Ronald Witteles, MD "Cardio-Oncology in 2019: What you need to know"
July	
10	Grand Rounds: Joseph Woo, MD "New Insights into Aortic and Mitral Valve Repair"
24	Grand Rounds: Eric Krieger, MD "TANSTAAFL: Aortic Valve Disease, Anticoagulation & Pregnancy"
31	Grand Rounds: Mary Norine Walsh, MD "Shared Decision Making in Cardiovascular Medicine"
August	
7	Tall Rounds: Combined Surgical and Interventional Complex Coronary Revascularization
14	Grand Rounds: Keith Naunheim, MD "Esophageal Cancer: Past, Present and Future"
28	Tall Rounds: Congenitally Corrected Transposition of the Great Arteries

September	
4	Tall Rounds: Approaches to Left Atrial Appendage & Occlusion
11	Grand Rounds: Frederic Luskin, PhD "Cultivating Happiness to Reduce Burnout: the Science of Positive
18	Tall Rounds: Lifelong Care for Endocarditis
25	Grand Rounds: Joel R. Sauer "Current and Futures Trends in the Cardiovascular Medicine Profession"
October	
2	Tall Rounds: Aortic Ruptures - Autolaunch Presentation to Repair and Disposition
16	Grand Rounds: Javid Moslehi, MD "Cardio-Oncology: A New Clinical Frontier"
23	Tall Rounds: CCF Cardiogenic Shock Team Initiatives
30	Grand Rounds: Michael Acker, MD "Transparency, Public Reporting and Shift to Quality and Safety in Cardiac
November	
13	Grand Rounds: Adam Myers, MD "Population Health/ Cleveland Clinic Community Care, Overview & Impact"
20	Tall Rounds: Heart Failure with Preserved Ejection Fraction
December	
11	Grand Rounds: Frank Veith, MD "Why RCTs and Guidelines are Misleading"
18	Grand Rounds: Wayne Hofstetter, MD " Immunotherapy in Resectable Esophageal Cancer and Endoscopic Therapy for T1bN0 Disease"

2018 Curriculum

January	
17	Tall Rounds: Getting to the Root of Thoracic Aneurysms
24	Grand Rounds: Phillip Cuculich, MD "Developing a Platform for Entirely Noninvasive Cardiac Radioablation (ENCORE) to Treat Heart Rhythm Disorders"
31	Grand Rounds: Steven Marso, MD "Reducing Diabetes and Cardiovascular Risk - The Power of Medicine"
February	
7	Tall Rounds: Dermatology of the Heart: Tales from the Pericardial Sac
March	
7	Tall Rounds: Carotid Disease
14	Grand Rounds: Michael Borger, MD "Lessons Gained from Minimally Invasive Mitral Valve Surgery"
28	Grand Rounds: Glenn Levine, MD "The Evolution and Devolution of DAPT"
April	
4	Grand Rounds: Mark B McClellan, MD "Health Care Reform and Cardiovascular Care"
18	Tall Rounds: Cardiac Amyloidosis
25	Grand Rounds: Euan Ashley, MD "Towards Precision Cardiovascular Medicine"
May	
9	Grand Rounds: Scott Solomon, MD "Heart Failure with Preserved Ejection Fraction"
16	Grand Rounds: Irene Lang, MD "Chronic Thromboembolic Pulmonary Hypertension"
30	Tall Rounds: Adult Cardiac ECMO
June	
6	Tall Rounds: Lessons Learned from HVI Innovators
13	Grand Rounds: Bruce Perler, MD "Evidence-Based Medicine and the Contemporary Management of Carotid Artery Disease: After 60 Years the Controversies Continue"
22	Grand Rounds: Vaughn Starnes, MD "Indications for the Ross Procedure in 2019"
July	
11	Grand Rounds: Steven Bolling, MD "FMR: Yesterday, Today and Tomorrow"
18	Tall Rounds: Partial Anomalous Pulmonary Venous Return
25	Grand Rounds: Ismail El-Hamamsy, MD "Aortic Valve Replacement in Young and Middle-Aged Adults: What Are the Options?"
August	

8	Grand Rounds: Bill Zoghbi, MD “The State of Cardiology and Cardiovascular Health in 2018: Challenges and Opportunities”
22	Tall Rounds: Bridging the Gap Between Digital Health and Clinical Practice
September	
5	Tall Rounds: Evaluation for Myocardial Viability Prior to Revascularization
12	Grand Rounds: Nassir Marrouche, MD “Personalized Path to Management of Atrial Fibrillation”
26	Grand Rounds: James de Lemos, MD “High Sensitivity Troponin”
October	
3	Tall Rounds: Complex Coronary Interventions
17	Tall Rounds: Preventive Cardiology & Rehabilitation
24	Grand Rounds: Jeff Jacobs, MD “Outcomes Analysis for Pediatric and Congenital Cardiac Surgery”
November	
14	Grand Rounds: Gail Darling, MD “Evolution in Care: Esophagectomy for Esophageal Cancer”
28	Grand Rounds: Matt Martinez, MD “Athlete Assessment: A Team Sport”
December	
12	Grand Rounds: Samuel Siu, MD “Cardiovascular Disease and Pregnancy”
19	Tall Rounds: The New Multi-disciplinary Center for Chest Wall Disease: Focus on Malignancies

2017 Curriculum

January	
4	Tall Rounds: Left Atrial Appendage
11	Grand Rounds: Santi Trimarchi, MD “Does the Uncomplicated Type B Aortic Dissection exist? Predictors of Aortic Remodeling”
18	Tall Rounds: Pulmonary Incompetence
February	
1	Tall Rounds: Congenital Thoracic Aortic Disease in the Adult
March	
1	Tall Rounds: Pericardial Effusion Disease
15	Tall Rounds: CIED Infection and extraction
April	
5	Tall Rounds: Prosthetic Valve Endocarditis
12	Grand Rounds: Paul Ridker, MD “Inflammation vs. Lipids, Pathogenesis of Atherosclerosis; How to Influence the Prevention of these Factors”
May	
10	Grand Rounds: Marc Moon, MD “Evarts A. Graham and the Training of a Cardiothoracic Specialist”
17	Tall Rounds: Lipid Lowering
24	Grand Rounds: Frances Marchlinski, MD “ARVC VT Mapping and Ablation: Lessons Learned”
31	Grand Rounds: James Douketis, MD “Navigating the Anticoagulation Landscape in 2017: What Every Cardiovascular Physician Needs to Know”
June	
7	Tall Rounds: Management of Stable CAD
14	Grand Rounds: James C. Stanley, MD “Pediatric Arterial Disease: Recognition and Management Strategies”
21	Tall Rounds: Surgical Treatment of Atrial Fib
28	Grand Rounds: Barry Borlaug, MD “Updates in Heart Failure With Preserved Ejection Fraction”
July	
12	Grand Rounds: Mark Allen, MD “Tracheal Surgery”

August	
9	Grand Rounds: Brian Ference, MD “Using Naturally Randomized Evidence to Improve the Design of Randomized Trials, Fill Evidence Gaps, and Define the Practice of Precision Cardiovascular Medicine”
16	Tall Rounds: Translational Science
September	
6	Tall Rounds: Mechanical Circulatory Support Options for Chronic Heart Failure
13	Grand Rounds: John Carroll, MD “The Evidence-Based Renaissance of PFO Closure”
20	Tall Rounds: Cardiovascular Oncology
27	Grand Rounds: Robert Bonow, MD “Progress in Bicuspid Aortic Valve Disease and Associated Aortopathies: New Insights, New Options, New Challenges”
October	
4	Tall Rounds: Management Endocarditis Patients with Embolic Strokes and Other Related Complications
November	
8	Grand Rounds: Thomas Rice, MD “Stepping Stones to Precision Esophageal Cancer Care”
15	Grand Rounds: Angelyn Bethel, MD “Insights to CVOTs in Diabetes”
December	
6	Tall Rounds: Pediatric - Congenitally Corrected TGA
13	Grand Rounds: Deephak Bhatt, MD “Setting a New Direction in CAD and PAD – The COMPASS Trial”
20	Grand Rounds: Ara Vaporciyan, MD “Modernizing Pedagogy in Cardiothoracic Surgical Education”

2016 Curriculum

January	
6	Tall Rounds: Cut on Concepts in Management of a Patient with Hypertrophic Cardiomyopathy
13	Grand Rounds: Robert Califf, MD “Time for a Better American System for Evidence Generation”
20	Tall Rounds: Constrictive Pericarditis: New Advances in the Modern Era
February	
3	Tall Rounds: Acute Pulmonary Embolism- A Team Approach
March	
2	Tall Rounds: The Collaborative Process of Innovation in HVI
9	Tall Rounds: Multi-disciplinary Approach to Sustained Hemodynamically Unstable Ventricular Arrhythmias
23	Grand Rounds: Partho Sengupta, MD “Non-invasive assessment of cardiac structure and function – Are we on target to meet today’s challenges?”
30	Tall Rounds: Hypertrophic Cardiomyopathy in the Athlete
April	
13	Grand Rounds: Gilbert R. Upchurch Jr., MD “Understanding Differences in the Pathogenesis of Thoracic versus Abdominal Aortic Aneurysms”
27	Grand Rounds: Catherine M. Otto, MD “The Future of CV Clinical Research and Implementation”
May	
11	Grand Rounds: Laura Mauri, MD “Dual Antiplatelet Therapy Duration: Linking Clinical Trials with Personalized Treatment Decisions”
June	
1	Tall Rounds: Solitary Pulmonary Nodule in the High Risk (for Cancer Patient)
8	Grand Rounds: Milton Packer, MD “Paradigm Shifts in the Treatment of Cardiovascular Disease: What If Oncologists Treated Patients with Heart Failure?”
15	Tall Rounds: Genetically Triggered Aortic Disease
29	Grand Rounds: Eugene Grossi, MD “Total Endoscopic Robotic Mitral Valve Repair, The NYU Experience”
July	
27	Grand Rounds: William L. Lombardi, MD “Complete Coronary Revascularization: A Change in Therapeutic

	Paradigm”
August	
3	Tall Rounds: SVC Syndrome
17	Tall Rounds: Cardiogenic Shock: From Impella to ECMO
September	
7	Tall Rounds: Multidisciplinary Approach to Carotid Disease
14	Grand Rounds: Peter K. Smith, MD “Turbulence in Cardiovascular Medicine: Desiring and Obtaining “Value” Are Two Different Things”
28	Grand Rounds: Marc J. Semigran, MD “Cardiac Amyloidosis: Advances in Therapies”
October	
5	Tall Rounds: What Happens in the EP Lab should Not Stay in the Lab
19	Tall Rounds: Mechanical Circulatory Support for Respiratory Failure
26	Grand Rounds: Jeffrey E. Saffitz, MD “Arrhythmogenic Cardiomyopathy: New Insights into Diagnosis and Pathogenesis”
November	
2	Tall Rounds: Advances in Heart Failure Pharmacotherapy
9	Grand Rounds: Craig R. Smith, MD “Long-term Results of TAVR – Is Structural Valve Failure Really an Issue and the Future of Low Risk TAVR”
23	Grand Rounds: No Grand Rounds
30	Grand Rounds: Michael S. Lauer, MD “Evidence-Based Funding: Thoughts About Extramural Research”
December	
7	Tall Rounds: Critical Limb Ischemia
14	Grand Rounds: Robert W. Yeh, MD “Coronary Revascularization in the Era of Public Accountability”
