RESEARCH FELLOW POSITION OPPORTUNITY
Taussig Cancer Institute's Hematology/Oncology Department
2027-2028

Cleveland Clinic's Global Patient Services (GPS) announced the call for applications to the Taussig Cancer Institute for a unique research opportunity to advance a candidate's skills and knowledge within our Hematology/Oncology Department. In collaboration with Taussig Cancer Institute, GPS has established a one-year research fellow position under the supervision of a departmental staff physician for focused training in cancer research. This department will provide the salary and benefits (only); accommodations including housing, travel and transportation will be the responsibility of the applicant.

OVERVIEW:
The Taussig Cancer Institute's Hematology/Oncology Department is seeking qualified applicants for a one-year research fellow position dedicated to developing expertise in cancer research solid tumor malignancies, hematological malignancies, bone marrow transplant, cellular therapies, genomics or benign hematology. The individual will work with world leaders in respective disciplines in design of the study, assist with data collection and analyzing outcomes. Candidates who have completed Medical School (foreign or domestic) with a goal of expanding his or her research experience and furthering their education to pursue clinical training in the United States are welcome to apply.

This position is designed to integrate clinical and translational research. The overall goal is to work closely with a staff physician improving his or her skills as a clinical/translational investigator. The expectation is for a research fellow to obtain skills in cancer epidemiology, predictive factors and risk modeling. The fellow will learn and apply these techniques to deliver cancer related population based research projects and identify areas of research collaboration with other departments. He or she will participate in opportunities for improved clinical research outcomes through data handling, statistical analysis, and trial co-ordination and manuscript preparation. The fellow will also learn about new therapies under investigation, report results of treatment and when feasible, present work at national meetings in abstract as well as manuscript form.

Please note, applications are accepted beginning in November of each calendar year through January or until the position has been filled. To learn more about the department please visit our website- https://my.clevelandclinic.org/departments/cancer/depts/hematology-medical-oncology

To apply for the above opportunity, please complete and submit the below application and return to Susan Cozzarin via email at cozzars@ccf.org

1. Application Form
2. CV
3. Two letters of recommendation
4. Medical School Diploma
5. USMLE scores (Step 1, 2, and 3)

Interested candidates must meet the requirements established by Cleveland Clinic Graduate Medical Education. Clinical programs for graduate medical education purposes at the Cleveland Clinic will accept H1b and J-1 exchange visitors (alien physician category – sponsored by the ECFMG) visas. Cleveland Clinic does not sponsor immigrant (permanent resident) petitions for research or clinical trainees. One candidate per academic year is accepted.
