Updates to COVID-19 related orders in Epic

Last updated: April 6, 8:30am
For the most up-to-date information, reference the [COVID-19 intranet site](#).

The following updates have been made to COVID-19 related orders and order panels in Epic:

Influenza and RSV testing

- The Influenza/RSV order has been removed from all COVID-19 order panels.
- The inpatient and ED panel will include the COVID-19 test and isolation orders only.
- If suspected, providers may order the Influenza/RSV tests individually; however, currently less than 1% of influenza and RSV tests are positive.

Expedited COVID-19 testing (excludes ACMC, Union Hospital)

- The new Rapid COVID-19 order panel will be available in the ED and Labor and Delivery.
- This panel includes the order for rapid COVID-19 testing and an isolation order.
- The daily supply of rapid tests are limited and if the daily supply is exceeded, the specimen will be re-routed for standard testing by other methods.

Refer to the [COVID-19 rapid testing capabilities and guidelines](#) for more information.

Questions?
If you have questions or need assistance, please contact the [physician specialist](#) / [COA](#) for your area or contact the Help Desk for your location:
- *Akron General: call 330.344.6604 or contact Ag-helpdesk@ccf.org*
- *Main Campus and all other regions: call 216.444.HELP*
