Patient with Fever and/or Respiratory symptoms and/or GI symptoms (diarrhea) and/or flu-like symptoms

**ISOLATE**

- Private Room
- Contact and Droplet Precautions
  - **Patients** = Facemask during transport
  - **Caregivers** in direct contact with patient = facemask, protective eyewear, gown & gloves

**Clinically Unstable**

**Clinically Stable**

**ORDER COVID-19 TEST**

- If being done at Cleveland Clinic Lab:
  - Place Epic Order for “COVID-19 Coronavirus Panel”
  - Obtain specimen on-site by facility nurse
  - Single nasal- or oral-pharyngeal swab
  - Wear PPE (facemask, protective eyewear, gown & gloves) for obtaining specimen

While waiting for test results:

1. Continue Supportive Care at Facility
2. Continue Contact/Droplet Isolation
3. Cohort patients in separate designated units:
   1. Persons under Investigation (PUI)
   2. COVID-19 Confirmed Positive
4. Monitor Signs/Symptoms

**Test COVID-19 POSITIVE**

1. Continue Monitoring and Supportive Care at Facility
2. Continue Contact/Droplet Isolation
3. Cohort patients in separate designated COVID-19 unit

**Clinically Unstable**

**Test COVID-19 Negative**
