Virtual Visits for Inpatients Overview

A limited number of Cleveland Clinic iPads have been allocated to each unit to share. Each unit will be responsible for the care, storage and usage of these devices. Care team members will assist interested patients with virtual visits using AmWellNow on the Cleveland Clinic iPad for a meeting with family/visitors.

- All virtual visits will be scheduled ahead of time on the official Unit Virtual Visit Log (see pages 4-5).
- Virtual visits should be limited to approximately 30 minutes in length to allow each patient the opportunity to visit and caregivers the ability to work these visits in among their other care responsibilities.
- Encourage patients who have access and knowledge of their own mobile devices to use them for virtual visits with family to decrease the demand for the Cleveland Clinic iPads.
- Instructions for using FaceTime, Google Hangouts and Skype apps are available to distribute to patients who are interested in using their own phone to connect (see pages 11-16).

Setting Up Family and Visitor Virtual Visits

Nursing Unit Staff Will:

- Determine if patient has their own smart device and the ability to connect with family. If so, they should use the Cleveland Clinic guest network or their cellular phone plan and their own app when possible.
- Identify patient interest and ability with smart device setup for a virtual family conference.
- Determine with the patient a contact person with whom the patient would prefer to visit virtually.
- Consult Unit Virtual Visit Log to determine an available date and time block. Schedule/document that family visit on the schedule.
- Get name and phone number or email of preferred contact and use AmWellNow app on shared iPad per the Quick Reference Guide on page 8.

How to Set-up and Use the AmWellNow App on an iPad Quick Reference Guide for Nurse/Patient

AmWellNow can be used to connect with all operating systems (iPhone, Android, tablets, computers)

How to use the AmWellNow app on an iPad

1. Tap the AmwellNow app to launch it on the iPad.

2. Type in the universal email address: virtualvisitation@ccf.org.

Type in the universal pin: 1234.

Type in the universal display name: **Cleveland Clinic**.

Note: After you add this information once, you will only have to enter the pin (1234) each time you make a visit.

Type in either mobile number or email address of the family member you would like to reach.

Click on "Start a Visit."

3. The family member will receive a text or email to join a telehealth visit. Once the family clicks on the link, the call will begin.

> AMWELL NOW: Cleveland Clinic has invited you to a telehealth visit.

Click here to start your visit: https://amwlnw.com/ aUXv

TIP: Use this link to join the visit if you get disconnected.

6. When call is completed, simply touch the screen and then click on the red circle icon to hang up.

 A prompt may appear to allow access to the microphone and camera. Click the allow button.

 Once the family member joins, you will see them on the screen. The visit will take place at this time. Please turn the iPad horizontally and ask the family member to do the same.

If troubleshooting efforts don't work, please contact AmWellNow support at 833.392.0637.

Process Map

• Contact <u>virtualvisitation@ccf.org</u> if you have questions about the process.

Device Cleaning Guidelines

- 1. iPads, cases and charging cords MUST be thoroughly cleaned before and after each virtual visit using the purple top container wipes (PDI Super Sani Wipes) or wipes that do not contain bleach (bleach makes the screens cloudy).
- 2. Ensure proper personal protective equipment (hand sanitizer, gloves, face masks, eye wear, gowns) is available for all caregivers giving and collecting iPads to/from the patient.
- 3. Before usage and handling of the device, patient's hands should be sanitized.
- 4. Remember to practice frequent handwashing, no touching of face, etc.

The following information is for patients who bring in their own mobile devices and need assistance with connecting from their own device

For Apple iPhone or iPad How to make a FaceTime video call on your own device

We understand how important it is for you to receive support from your loved ones and friends while you are in the hospital. Below are instructions on how to stay connected using a video call.

First, confirm your contact/loved one has also downloaded the app you intend to use.

Get your phone ready

Make sure your phone is charged. You don't want your call dropped!

Make sure you are connected to Cleveland Clinic's public Wi-Fi.

To ensure your privacy, we ask that you end calls when your care team is in the room and providing care.

Turn on FaceTime on your device

Adapted for Cleveland Clinic with permission from Stanford Health Care.

Tap on the FaceTime app to launch it on your iPhone or iPad.

Note: You can also start a FaceTime video call from your iPhone during a phone call.

3

2

Tap the + button (top right corner).

Type the name, email address or phone number in the "To" field.

Enter more names, email addresses or phone numbers if you want to create a group FaceTime call.
