

PLAN OF CARE Visits

Greet patient, introduce team and collaboratively set agenda

Get patient’s perspective

Did you know...

that POCV can save you time by reducing the number of interruptions in your day? Physicians who consistently perform POCV receive significantly fewer calls and pages, saving them time and energy.

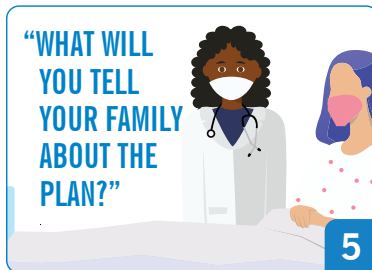

Invite nurse and team input

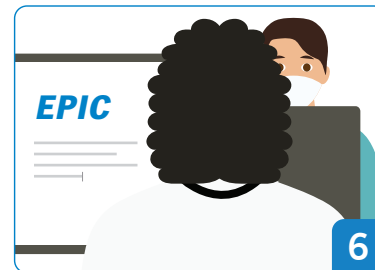

Collaboratively develop a plan including planned discharge date

Seek patient’s understanding

Document Plan of Care Visit

Best practice tips

1. Clinician should notify Health Unit Coordinator or nurse when they are on their way and/or when they arrive on the unit.
2. Identifying a regular time for POCV for clear communication.
