Inpatient and ED Providers (excludes ACMC, FL, Union)

Order updates enable Rapid COVID-19 testing for inpatient emergency procedures

Last updated: April 12, 11:00pm

For the most up-to-date information, reference the [COVID-19 intranet site](#).

A required question has been added to the Rapid COVID-19 order panels in Epic to ensure patients meet the criteria for rapid testing.

Additionally, the order panel is now available to inpatient providers for testing patients requiring an emergency surgery or interventional radiology procedure within 24 hours.

Refer to the [Expanded COVID-19 testing capabilities and guidelines for surgeries and procedures](#) for more information.
