

# Lakewood Emergency Department

Every day, every hour, doctors and nurses at Cleveland Clinic Lakewood Emergency Department are ready to offer emergency care for all ages. Our full-service, freestanding emergency department handles critical emergency medical conditions, including:

- Abdominal pain
- Behavioral health and chemical dependency evaluations/referrals
- Chest pain
- Diabetes complications
- Fractures, strains and sprains
- Minor trauma (laceration repair)
- Pediatric conditions (fever, stomach flu, bronchiolitis, dehydration, asthma)
- Severe headache
- Stroke symptoms

While most emergencies do not require hospital admission, patients requiring inpatient care will be transported to the closest, most appropriate hospital.

#### **Cleveland Clinic Lakewood Emergency Department offers:**

- Board-certified emergency medicine physicians and physician assistants
- Registered nurses certified in adult and pediatric advanced cardiac life support
- Paramedics, respiratory therapists and technicians
- Complete radiology services (X-ray, ultrasound, CT, MRI\*)
- Blood products
- Full laboratory services
- Expedited transfers to trauma centers
- Access to Cleveland Clinic patient electronic medical records

*\*Certain weekday hours*

Cleveland Clinic is proud to be part of the Lakewood community for nearly two decades, and is looking forward to providing ongoing care in this new era of healthcare. Construction of a new family health center with a new state-of-the-art emergency department is planned to begin in 4th quarter 2016 and is expected to be completed in mid-2018. Cleveland Clinic will continue serving the emergency medical needs of the community 24/7, 365 days a year, throughout the transition and beyond.
