**CLEVELAND CLINIC LOU RUVO  
CENTER FOR BRAIN HEALTH**

Cleveland Clinic Lou Ruvo Center for Brain Health, which opened in 2009, provides expert diagnosis and treatment for individuals and families living with Alzheimer’s disease, Lewy body, frontotemporal and other dementias; Parkinson’s and Huntington’s disease, multiple system atrophy and other movement disorders; and multiple sclerosis. With locations in Cleveland, Ohio; Weston, Florida and headquarters in Las Vegas, Nevada, the center offers a continuum of care with no-cost opportunities for the community to participate in education and research, including disease prevention studies and clinical trials of promising new medications. An integrated entity, Keep Memory Alive, raises funds exclusively in support of the Nevada location.

**VITAL STATISTICS (2019 year end)**

Staff (MDs, DOs and PhDs).....	<b>14</b>
Employees.....	<b>150</b>
Rotating residents and fellows .....	<b>33</b>
GME-approved training programs .....	<b>4</b>
Clinical patient visits.....	<b>29,168</b>
Lives in our care .....	<b>5,800</b>
Clinical trials participation .....	<b>2,600</b> study visits

**CLEVELAND CLINIC HEALTH SYSTEM INCLUDES**

Caring for **2.4 million unique patients** annually with **10 million outpatient visits** in locations around the globe. Patients came for treatment from **every state and 185 countries.**

- > **18** hospitals
- > **220+** outpatient locations
- > **6,026** beds
- > **4,500** physician scientists
- > **1,974** residents and fellows
- > **67,500** caregivers worldwide

Locations include:

- > A main campus in **Cleveland**
- > **11** regional hospitals in **Northeast Ohio**
- > **5** hospitals in **Southeast Florida**
- > A 184-bed hospital in **London** (will open in 2021)
- > A sports and executive health center in **Toronto**
- > A 364-bed hospital in **Abu Dhabi**

## AWARDS & RECOGNITION

Cleveland Clinic Lou Ruvo Center for Brain Health has:

- > Been named a **Research Center of Excellence by the Lewy Body Dementia Association**
- > Been the only program in southern Nevada to receive the **Partners in Care** designation from the **National Multiple Sclerosis Society**
- > Been named one of the first five **CurePSP Centers of Care** in the United States
- > Been named one of the Cleveland Clinic locations of the **Parkinson's Foundation Center of Excellence**
- > Continued to operate the only **Huntington's Disease Comprehensive Clinic** in Nevada
- > And, as part of Cleveland Clinic, been named the No. 10 neurology program in the country for 2019-20 in **U.S. News and World Report's** annual rankings

## OUTPATIENT SATISFACTION: CGCAHPS SCORES

In 2019, the Lou Ruvo Center for Brain Health scored among the top 10% nationwide in these key metrics:

## VOLUNTEER COMMITMENT

The Lou Ruvo Center for Brain Health volunteers demonstrate the power of a smile, a kind word, an attentive ear, an honest compliment and the simple act of caring with each of their interactions. The center maintains **114 active volunteers** who donate their time, skills and compassion to enhance the patient experience, donating more than **116,000 hours** since our center opened in 2009.

## MEDICAL & PRE-PROFESSIONAL EDUCATION

From 2010 – 2019, the Lou Ruvo Center for Brain Health Education Program hosted **15 live continuing medical education conferences** for more than 2,800 physicians and providers, with an additional 5,500 online views. Additionally, we delivered more than **68,000 hours of education** (K-12 students through medical residents). Our center has expanded graduate medical education (GME), training four full-time Cleveland Clinic fellows and hosting **33 community residents and fellows on rotation in 2019**.

## CLINICAL TRIALS AND RESEARCH

The Lou Ruvo Center for Brain Health's clinical trials program is among the largest in the country for Alzheimer's disease. We have conducted more than **80 trials** in Alzheimer's and other dementias; Parkinson's, Huntington's and other movement disorders; multiple sclerosis and normal cognition. In 2019, we facilitated more than **2,600 study visits** and accepted **700 new research participants**. Additionally, we offer investigator-led studies, including a study of repeated head trauma in **840 active and retired professional athletes**. We offer opportunities to participate in research regardless of where individuals receive neurological care.

In 2015, the Lou Ruvo Center for Brain Health and UNLV were awarded an **\$11.1 million grant from the National Institutes of Health**, establishing southern Nevada's first Institutional Development Award (IDeA) and Center of Biomedical Research Excellence (COBRE). The grant provides more than \$2 million a year over a five-year period to fund three research projects related to Parkinson's and Alzheimer's.

## CLINICAL SERVICES AT CLEVELAND CLINIC NEVADA NEUROLOGY

The Lou Ruvo Center for Brain Health offers a multidisciplinary patient-focused approach to diagnosis and treatment. Our neurologists are fellowship trained in subspecialized areas of treatment and research, and focus on: Alzheimer's disease, Lewy body, frontotemporal and other dementias; Parkinson's and Huntington's disease, multiple system atrophy and other movement disorders; and multiple sclerosis.

## IMAGING SERVICES

With a 3-Tesla MRI and a state-of-the-art PET/CT scanner, Cleveland Clinic Nevada's imaging services are second to none. We image nearly the entire body, and **results are usually available within 24 hours**. Our imaging is backed by the full resources of Cleveland Clinic's Imaging Institute, which is staffed by board-certified, academically trained subspecialty radiologists who quickly return exam results to the ordering physician.

## INFUSION

Some drug therapies for MS and other neurodegenerative diseases are administered by intravenous infusion. Utilized for both treatment and research and equipped with the latest technology, our infusion suite creates a comfortable environment for patients and families living with similar diseases.

## NEUROREHABILITATION

At the Lou Ruvo Center for Brain Health, our board-certified specialists use cutting-edge technology and customized exercises during one-on-one individualized treatment sessions. Our physical, occupational and speech therapy programs are specifically tailored to the needs of those experiencing the effects of brain disorders. By incorporating patients' interests and hobbies and offering socially enriching experiences, we work to increase our patients' mobility and agility while decreasing fatigue and falls. Our goal is to leverage research, provide expert care to patients and their caregivers, and empower patients to live independently as long as possible.

## NEUROPSYCHOLOGY

Our neuropsychologists' highly specialized clinical training focuses on evaluating the relationship between the brain and behavior. Assessing exactly what has gone wrong with memory can be a very useful tool for both patients and their physicians, and can have a direct impact on treatment planning.

## NO-COST SUPPORT SERVICES FOR OUR COMMUNITY

Since 2009, we have provided a total of more than **50,000 visits** to our no-cost caregiver education, social work and support services. A diagnosis of a degenerative brain disorder is life-changing, and these offerings are designed to reduce stress by increasing knowledge, coping skills and a sense of well-being among patients, family members and care partners as they navigate this unexpected journey.

In 2019, we delivered:

- > **4,600 visits to group education programs**
- > **2,500 one-on-one support visits spanning case management and community resource introductions**
- > **1,600 support group visits**
- > **1,200 encounters with music therapy**
