Billing & Insurance

Follow this checklist before your appointment to help ensure a smooth billing process:

1. Contact your insurance company to make sure you understand your benefits and your plan's requirements.
2. Confirm that Cleveland Clinic is a contracted provider of services for your plan.
3. Obtain a referral, if required by your insurance company.
IMPORTANT: Discuss this with your primary care physician prior to scheduling an appointment with one of our specialists.
4. Know the limitations of the referral and obtain an extension or expansion of the scope of the referral if needed.
