

Parking Assignment
for

All Clinical Partners

(Includes **all** nursing students and clinical instructors)

At Hillcrest hospital putting *Patients First* requires us to be aware of inpatients and outpatients. Many of our outpatients visit at Hillcrest North Campus and the Hillcrest Medical Buildings. Parking has become a challenge for many of our patients.

To support our patients, effective immediately, all clinical partners are to park on the top floor of the Hillcrest Medical Buildings parking garage.

- ♦ The garage is located on the north side of Mayfield Road, directly behind the Hillcrest Medical Buildings.
- ♦ The top of the garage is secured with continuous camera monitoring and regular rounding by security officers.
- ♦ An elevator is available to the first floor exit. Clinical partners may then walk or ride the shuttle bus to the main hospital entrance and then back after their shift

Security will be monitoring for compliance, to ensure that patients and visitors have adequate parking.

As a reminder all clinical instructors are to register students' car at the beginning of each clinical rotation. All clinical partners are to display their temporary parking tags on each visit to Hillcrest hospital.

If you have a question please contact Joyce Leonette,
leonetj@ccf.org – 216-444-5073.

Thank you for your cooperation and is helping us to put *Patients First*.
