

Breastfeeding Medicine

Are you worried you'll have issues breastfeeding, or are you looking for additional support from breastfeeding experts? At Cleveland Clinic Children's, our team provides comprehensive breastfeeding care and support to families in need to help them along their entire breastfeeding journey.

Our team is staffed by physicians and advanced practice providers specially trained in breastfeeding medicine and assists with various breastfeeding-related issues, including:

- › Prenatal appointments for mothers with risk factors for breastfeeding challenges
- › Latching difficulties
- › Transfer of milk difficulties
- › Low milk production
- › Oversupply, engorgement or recurrent mastitis
- › Nipple pain
- › And more!
