Which Doctors are not covered under our Financial Assistance Policy?

Most services provided by physicians at Cleveland Clinic facilities are covered by the Cleveland Clinic Financial Assistance Policy (FAP), as described below.

Physicians working at each facility who are not covered under the FAP are identified in the attached Provider List, by name and the hospital facility where they practice.

The list is also available online at clevelandclinic.org/financialassistance, in all our Emergency Departments and admissions areas, and upon request by calling Patients First Support Services (PFSS) or asking a Cleveland Clinic Patient Financial Advocate.

East Central Florida Facilities. All services by physicians, whether in the hospital or in a physician office, are covered under the FAP because the physicians are Cleveland Clinic employees. This is also true in all our East Central Florida Family Health and Surgery Centers.

Some physicians performing services in our hospitals are in private practice. Their services are not covered under our FAP. You would receive a bill from us for the hospital services, and a separate bill from them for their physician services. The names of the physicians whose services are not covered by the FAP are listed under the name of each regional hospital where they practice.

Southeast Florida Facilities. Services in the physician offices of the Florida Clinic are not covered under the FAP. In the Florida Hospital, emergency services and certain other services provided in the hospital by Cleveland Clinic employed doctors are covered under the FAP. Those few physicians performing services in the Florida Hospital who are not covered under our FAP are listed under the heading “Florida Hospital”.

This listing is effective as of 6/18/2022, and updated quarterly. If you do not see a physician listed here and want to verify whether that person is currently covered under the CCHS FAP, please call PFSS at 866.621.6385.
