What is a diet order? A diet order is part of your care plan and it provides guidance as to the amount and types of food and drink you can have during your hospital stay. All patients will have a diet order and it may change during your stay.

Regular Diet: Has no therapeutic restrictions per meal order and includes a variety of healthy, nutritious options. You may be restricted on how much or how often you can place a meal order.

Therapeutic Diet: Includes healthy, nutritious options that will limit what and how much you can eat, how often you can eat, and possibly the texture of your food. These diets support healing and recovery.

NPO Diet: Also known as a "Nothing by Mouth" Diet, restricts all eating and drinking before and after certain procedures and/or tests, and is for your safety.
