

BEACHWOOD AMBULATORY PHARMACY INTERNSHIP

Beachwood, Ohio | Outpatient Pharmacy

ABOUT OUR SITE

We are an outpatient pharmacy located in a Family Health Center, operating most similarly to a traditional retail pharmacy. Some additional, unique services that we offer are travel vaccines, a pharmacist refill authorization program, and fertility medications.

INTERNSHIP AT A GLANCE

Program structure: Summer-focused program with an ongoing PRN role throughout the school year. Opportunities to work on Saturdays and at other locations.

Typical student level(s): Varies based on program needs.

Core experience: outpatient workflow, vaccine administration, exposure to clinical programs and leadership, quality improvement projects

TIME COMMITMENT & STAFFING

- School-year expectations: Saturdays and short shifts/hours during the week, minimum 2 shifts per month
- Summer expectations: up to 40 hours per week, minimum 20 hours per week
- Opportunity to work at other locations, if desired

HOW YOU'LL GROW

You'll begin by learning the operational foundations of our outpatient pharmacy. You'll be a part of a supportive team as you complete tasks involved in the filling and dispensing of prescriptions. As school progresses, so does your opportunity to put clinical knowledge and skills into practice. You'll administer vaccines, field patient questions, provide drug information, and collaborate with pharmacists and providers at various steps in the prescription process. We encourage you to pursue your interests as they continue to develop by completing patient case reviews, drug information research, quality improvement projects, and presentations. You'll master foundational skills to excel as a pharmacist in any practice setting and will have the opportunity to grow into your interests as they develop alongside your education.

WHAT INTERNS DO

- Review orders, resolve third-party claims, fill and dispense prescriptions in outpatient pharmacy workflow.
- Administer vaccines to patients, field medication questions, complete prescription counseling, transcribe phoned-in prescriptions, complete prescription transfers, communicate with providers for prescription clarification.
- Projects per operational needs and student areas of interest. Including, but not limited to: drug information questions, patient cases, quality improvement initiatives, compliance/legal matters.
- Shadow pharmacists working in clinical programs

WHAT MAKES OUR PROGRAM UNIQUE

The Beachwood Ambulatory Pharmacy Internship offers an outpatient pharmacy experience in a supportive environment with these unique features:

- Utilization of EMR to support the prescription filling process
- Direct contact with providers via Secure Chat and EMR
- Travel vaccine case review and administration
- IVF medication dispensing
- Pharmacist-managed refill authorization collaborative practice agreement
- Pharmacist-completed prior authorizations
- Opportunity to work at other outpatient pharmacies and shadow pharmacists at on-site ambulatory clinics

PROFESSIONAL DEVELOPMENT

- Leadership exposure, QI projects, presentations, mentorship
- Collaboration with students in other pharmacy schools
