

Cleveland Clinic

Inpatient Pharmacy Internship Program

Our Purpose

The Cleveland Clinic Department of Pharmacy aspires to be the world leader in pharmacy practice. To do so, we believe in providing **world-class experiences** that will prepare student pharmacists for their post-graduation goals.

The Main Campus inpatient program will prepare interns to become pharmacy practitioners that embody **excellence in education, clinical care, and personal integrity**. This program challenges student pharmacists to think creatively and critically while emphasizing **diversity, innovation, and the commitment to putting patients first**.

Program Details

When: This 3-year, longitudinal program is a **year-round paid internship** consisting of two 12-week summer components from May-August (between P1/P2 and P2/P3) and an average of one out of every four weekends throughout the academic year. Internship **start and end dates are customizable** based on final exam schedules and departmental needs.

What: The internship will cultivate a **highly translatable skill set** through clinical and operational experiences. All interns will start rotations in pharmacy operations and progress to clinical experiences. Clinical rotations available include internal medicine, cardiology, emergency medicine, and critical care with electives in other clinical areas based on preceptor availability.

Every intern has the opportunity to participate in **research, projects, and presentations**.

Why: Our internship program provides **tangible, real-world experience** at one of the most highly renowned hospitals in the world. As a Caregiver within our expansive, evolving department of pharmacy, you will not only gather the skills critical to a student pharmacist, but you will find **friendships, mentorship, and unprecedented professional growth**.

Cleveland Clinic is pleased to be an equal opportunity employer. All applicants will be considered regardless of race, color, religion, sex, sexual orientation, gender identity, national origin, veteran or disability status. Cleveland Clinic is a smoke-free/drug-free environment.

Eligibility

To be eligible for selection, students must be in their first year of professional pharmacy education within an ACPE-accredited doctor of pharmacy program (**either 1st year student in a 4-year program or 3rd year student in a 6-year program**). Students beyond their first year in pharmacy school are eligible to apply for a separate operational role at Main Campus if interested.

Students must be eligible for an intern license in the state of Ohio. If selected, the student will be required to obtain their license by April 1, 2026 and maintain for the duration of their employment.

Applicants will be evaluated on various parameters including career goals, prior experience, communication skills, and the ability to work in a dynamic team atmosphere. **Candidates should be available for a 30-minute Microsoft Teams interview in October.**
