

Facility:	Program:	RPD:	Resident(s):	Title:
Main Campus	PGY1 Community	Amy Gustafson	Leighton Boquist	Impact of pharmacist interventions in COPD patients following discharge from regional hospitals
	PGY1 Pharmacy	Jennifer Sekeres	Rick Carlson	Impact of dexmedetomidine on Transitions of Care
		Maddie Waldron	April Chapman	Assessment and Management of Delirium in Hospitalized Stroke Patients at a Large Academic Medical Center
			Atul Dilawri	Liposomal Bupivacaine versus Immediate-Release Bupivacaine for Postoperative Pain Control
			Alexa Plutt	Determination of tolerability of a continuous infusion administration of ifosfamide in a pediatric patient population
			Kerri Row	Olanzapine for CINV Prophylaxis in Pediatric Hematology/Oncology
			Emily Wings	Evaluation of Clotrimazole Effect on Tacrolimus Trough Concentrations in Kidney Transplant Recipients
	PGY1/2 HSPAL	Sam Calabrese	1. Luke Mennen	Use of Bone Modifying Agents in Metastatic Breast Cancer
		Dan Lewis (Coordinator)	1. Danielle Powall	Evaluation of intravenous glucagon use
			2. Andrew Vandermause	1. Implementation of a Real-Time Inpatient Pharmacy Dashboard
	PGY1/2 Pharmacotherapy	Mike Militello	1. Nicole Babiak	Characterization of treatment and outcomes following aspiration events in critically ill patients
			2. Molly Wheeler	1. Hypoglycemia Prediction and Proactive Intervention
				2. Evaluation of vancomycin dosing in pediatric RRT patients
	PGY2 Ambulatory Care	Gia Russo-Alvarez	Kristine Duly	1. Evaluation of SGLT-2 inhibitor prescribing patterns in Cleveland Clinic primary care settings
				2. Primary Care Pharmacy New Referral Capture Rate Improvement Post-SOLVE Countermeasure Implementation
			Alayna Kehr	1. Pharmacist Interventions from Continuous Glucose Monitoring Data
				2. Pharmacogenomic Testing for Patients Referred from the Center for Geriatric Medicine
	PGY2 Cardiology	Katie Greenlee	Colleen Hutchinson	1. Evaluation Dexmedetomidine in patients with heart failure
				2. Periprocedural bridging with cangrelor and tirofiban during oral P2Y12 inhibitor interruption
	PGY2 Critical Care	Heather Torbic	Dylan Hanna	1. Risk factors and characterization of heparin-induced thrombocytopenia diagnosis in extracorporeal membrane oxygenation
				2. Evaluation of vancomycin loading doses patients with severe infections
			Jessica Ward	1. Evaluation of protocol for rifaximin discontinuation in patients on broad-spectrum antibiotics
				2. Therapeutic versus prophylactic anticoagulation in venovenous extracorporeal membrane oxygenation
	PGY2 Emergency Medicine	Matt Campbell	Reaghan Erickson	1. Impact of a Health-System Care Path on Time to Administration of 2nd Doses of Piperacillin/Tazobactam for Emergency Department Patients
				2. Evaluation of the Management of Acute Hyperkalemia
	PGY2 Infectious Diseases	Katie Rivard	Alex Taylor	1. Comparison of antimicrobial prescribing in outpatient settings
				2. Pre/post assessment of antimicrobial prescribing for GAS after implementation of rapid PCR testing
	PGY2 Informatics	Marc Willner	Nicole Guist	1. Evaluation and Implementation of Critical Low Pyxis Setting
				2. Assessment of Contraindicated Mediations Functionality on Prescribing for Research Patients
			Stephen To	1. Turning on outpatient order contexts so age-based dosing and frequency buttons will appear for prescriptions
				2. Analysis of pharmacy designed AI expert systems on physician prescribing
	PGY2 Medication Use Safety & Policy	Meghan Lehmann	Sonya Anderson	1. Comparison of bupivacaine liposomal to immediate release bupivacaine for post-operative pain control in pediatric patients
				2. Rifaximin Use in Non-ICU Adult Patients
	PGY2 Oncology	Caitlin Siebenaller	Clare Dyczkowski	1. Evaluation of use of a broad prescribing approach for levofloxacin prophylaxis in pediatric patients with hematologic and solid tumor malignancies
				2. Efficacy and Toxicity of Abemaciclib after prior palbociclib or ribociclib
			Yannis Koukounas	1. Palbociclib vs Ribociclib as First Line Therapy for HR+/HER2- Metastatic Breast Cancer
				2. Short Term Adverse Effects Associated with ATG in Pediatric BMT

Facility:	Program:	RPD:	Resident(s):	Title:
			Richa Shah	1. Oral chemotherapy dosing during maintenance therapy for young patients with Acute Lymphoblastic Leukemia 2. Use of Letermovir and CMV Infection
	PGY2 Pediatrics	Jessica Hoover	Ellie Anatrella	1. Evaluation of CMV prevention strategies in pediatric SOT patients 2. Pediatric Smart Pump Care Area Consolidation/Standardization
	PGY2 Solid Organ Transplant	Jessica Bollinger	Brad Berak	1. Delayed CMV Prophylaxis in Kidney Transplant 2. Daptomycin versus Linezolid in critically ill liver transplant recipients
