

Department of Pharmacy

PGY2 Ambulatory Care Residency

Program Purpose

PGY2 Purpose: PGY2 residency programs build upon Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency training to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives for advanced practice areas. Residents who successfully complete PGY2 residency programs are prepared for advanced patient care or other specialized positions, and board certification in the advanced practice area, if available.

Program Structure

Residency program experiences include a combination of concentrated and longitudinal rotations. Residents are required to complete 2 elective concentrated rotations (4 weeks in duration). Pending performance, residents may opt-in to complete the elective longitudinal Independent Practice rotation. The Independent Practice rotation is not required for successful completion of residency. Availability of experiences are as follows:
