

## MRI Safety and Medical Eligibility Attestation

**Name:** \_\_\_\_\_

**Program:** \_\_\_\_\_

Candidates must be physically and mentally capable of fulfilling the objectives of the School of Health Professions Program. MRI clinical environments use powerful magnets, which may cause harm to individuals by a metal object (even if removed) or may interfere with some personal medical devices or implants.

### Examples may include:

Hearing aids	IUDs
IV access ports	Pain or baclofen pumps
Insulin pumps	Penile implants
Coils	Ear/cochlear implants
Continuous glucose monitors	Programmable shunts
Filters	Eye implants
Pacemakers	Loop recorders
Defibrillators	Metal objects or implants
Stents (other than heart)	Tissue expanders (does not include breast implants) or programmable shunts
Stimulators (e.g. DBS, VNS, SCS, bladder)	

Candidates with any concerns should consult their healthcare provider.

I attest that I do not have any of the above conditions that would prevent me from operating an MRI machine

Signature of Applicant: \_\_\_\_\_ Date: \_\_\_\_\_
