Purpose

This SOP establishes uniform guidelines and onboarding requirements for Supplier Representatives, including: non-employees, vendors, students, volunteers, contractors, construction workers, affiliated medical professionals, observers, etc., who require access to Cleveland Clinic (CC) networks or facilities including: Cleveland Clinic patient care areas (defined as any area that an individual will or may come into contact and/or in the same vicinity with patients of Cleveland Clinic such as hospitals, family health centers, ambulatory surgery centers, physician offices, etc.), administrative buildings, new construction sites, servers, applications, etc. Adherence to this SOP safeguards proper Supplier Representative vetting and orientation prior to assignment at Cleveland Clinic via a third party and ensures reasonable control and identification of Supplier Representatives to maintain a safe environment for our patients, caregivers, visitors, and infrastructure.

This standard operating procedure is applicable to all Cleveland Clinic health system locations and mandates a centralized system for housing compliance elements in Protective Services in the event of an audit.

Vendor Representatives can play an important role in patient care and the operation of Cleveland Clinic assets and are permitted to be present in Cleveland Clinic (CC) facilities or
have access to our network and applications at the request of an appropriate caregiver. To ensure safety for our patients and caregivers, Security Administrative Services maintains a standardized onboarding process for all Cleveland Clinic health system locations prior to assignment.
