Epileptology:
Comprehensive Review and
Practical Exercises
October 1-3, 2010

Epilepsy Surgery:
Invasive Evaluation
October 3-6, 2010

Symposia Directors:
Jocelyn Bautista, MD
Jorge Gonzalez-Martinez, MD, PhD
Ajay Gupta, MD
Dileep Nair, MD
Imad Najm, MD
Description
The 19th International Cleveland Clinic Epilepsy Symposia will focus on the invasive evaluation of focal epilepsies and a comprehensive update on epilepsy diagnosis and management options. The indications for various invasive methods (subdural grids versus depth electrodes versus intraoperative electrocorticography) will be discussed in light of acquired experiences and data/outcome analyses from leading international epilepsy centers. In addition, there will be in-depth discussions of the major concepts that define epileptogenicity and epileptogenesis. The significance of interictal and ictal epileptic patterns will be highlighted. The role of various EEG, imaging and other non-invasive modalities will also be discussed. Pertinent nursing, socio-economic and psychological/psychiatric issues in patients undergoing invasive evaluation will be outlined.

Target Audience
The symposia are designed for adult and pediatric neurologists and epileptologists, neurosurgeons with an interest in epilepsy surgery in adults and children, psychiatrists, clinical neuropsychologists, social workers and other expert caretakers of patients across all age groups with epilepsy.

Course Objectives
1. Explain the role of EEG in the diagnosis and treatment of epilepsy
2. Discuss the medical management of patients with epilepsy
3. Review the surgical management of patients with epilepsy
4. Recognize the molecular and genetic mechanisms of epilepsy
5. Recognize and manage the psychiatric comorbidities in patients with epilepsy
6. Discuss the fundamental concepts of epileptogenicity and epileptogenesis
7. Discuss the role of non-invasive methods in the design of a surgical strategy for invasive electrode implantation and monitoring
8. Review the indications, techniques and complications of different methods of invasive monitoring in patients with medically intractable focal epilepsies
9. Discuss lessons learned from surgical successes and failures in invasive monitoring

Call for Abstracts
Residents and fellows are invited to submit abstracts describing epilepsy-related research in the following categories: clinical epileptology; epilepsy surgery; epilepsy imaging; neuropsychiatric aspects of epilepsy; and neuropharmacology. Five abstracts will be awarded platform presentations and the registration fees will be waived for the presenting authors. Abstracts may be submitted to:
www.ccfcme.org/EpilSurg10abstracts
Deadline to submit is July 30, 2010.

7:45-8:00 Welcome, Course Introduction

8:00-8:45 Lecture: Mechanisms of Epilepsy
8:45-9:30 Lecture: Genetics of Epilepsy
9:30-10:15 Lecture: EEG Diagnosis of Epilepsy

10:15-10:30 Break

10:30-11:15 Lecture: Pediatric Epilepsy Syndromes
11:15-12:00 Lecture: Adult Epilepsy Syndromes

12:00-13:30 Lunch

13:30-15:00 Parallel Workshops:
   1. Pediatric EEG
   2. Adult EEG

15:00-15:30 Break

15:30-17:00 Parallel Workshops:
   1. Pediatric Seizure Semiology
   2. Adult Seizure Semiology

Saturday, October 2

8:00-9:00 Lecture: Medical Management of Adult Epilepsy
9:00-10:00 Lecture: Medical Management of Pediatric Epilepsy

10:00-10:15 Break

10:15-11:00 Lecture: Selection of Adult Epilepsy Surgery Candidates
11:00-11:45 Lecture: Selection of Pediatric Epilepsy Surgery Candidates

12:00-13:30 Lunch

13:30-14:00 Lecture: Surgical Management of Epilepsy
14:00-14:30 Lecture: Invasive Monitoring – Indications and Techniques

14:30-15:00 Break

15:00-16:30 Parallel Workshops:
   1. Pediatric Epilepsy Surgery Case Discussions
   2. Adult Epilepsy Surgery Case Discussions

Sunday, October 3

8:00-8:45 Lecture: Neuroimaging in Epilepsy
8:45-9:30 Lecture: Epilepsy in Women

9:30-9:45 Break

9:45-10:30 Lecture: Psychiatric Co-morbidities Associated with Epilepsy
10:30-11:15 Lecture: Status Epilepticus and SUDEP

11:30-13:00 Lunch

13:00-14:30 Parallel Workshops:
   1. Medical Management of Adult Epilepsy
   2. Medical Management of Pediatric Epilepsy

14:30-15:00 Break

15:00-16:30 Parallel Workshops:
   1. Management of Psychiatric Co-morbidities
   2. Management of Epilepsy in Women

Sunday, October 3, 2010

12:00-17:00 Hands-On Surgical Workshop for Neurosurgeons

Workshop Organizers – William Bingaman, MD and Jorge Gonzalez-Martinez, MD, PhD

This highly successful half-day hands-on dissection workshop demonstrates some commonly used epilepsy surgery techniques that include various approaches to temporal lobe resection and hemispherectomy/disconnection methods. Cleveland Clinic Epilepsy Surgery faculty and world-renowned neurosurgeons in the field of epilepsy surgery will discuss their choices for surgical techniques, and demonstrate their surgical approaches in a highly interactive and hands-on workshop.
Monday, October 4

7:45-8:00 Welcome and Introductory Remarks

Session I
Clinical Successes: What Are We Doing Right (Patterns/Location/Pathology)?
8:00-8:10 Introduction – Dileep Nair (Moderator)
8:10-8:35 Stereo-Electroencephalography (SEEG)
8:35-9:00 Subdural Grid Electrodes (SDG)
9:00-9:25 Intraoperative Electroicorticography (ECoG)

Session II
Clinical Failures: What Are We Missing (Patterns/Location/Pathology)?
9:35-10:00 Stereo-Electroencephalography (SEEG)
10:00-10:25 Subdural Grid Electrodes (SDG)
10:25-10:50 Intraoperative-Electrocorticography (ECoG)

11:00-11:50 The Third Dudley S. Dinner Distinguished Epileptologist's Lecture
Dennis Spencer, MD
Invasive Monitoring in Epilepsy: Past, Present and Future

11:50-13:00 Lunch

Session III
Fundamental Concepts: Applications/Limitations
13:00-13:10 Introduction – Americo Sakamoto (Moderator)
13:10-13:35 Dynamic Aspects of the "Epileptic Zones": Current vs Dormant Epileptogenicity
13:35-14:00 Penfield/Jasper Concept
14:00-14:25 Talairach/Bancaud Concept
14:25-14:50 Neuromodulation of the Epileptic Brain

14:50-15:20 Coffee Break

Session IV
Roles of Various Techniques in the Indication and Choice of the Invasive Methods
15:20-15:30 Introduction – Fernando Cendes (Moderator)
15:30-15:50 Indications for Invasive Monitoring: Candidates and Goals
15:50-16:10 Scalp EEG
16:10-16:30 Seizure Semiology
16:30-16:50 Magnetic Resonance Imaging
16:50-17:10 PET Metabolic Imaging
17:10-17:30 Ictal SPECT
17:30-17:45 Magnetoencephalography (MEG)

17:45 Adjourn

Tuesday, October 5

Parallel Session I
Electrical Markers of Dormant Epileptogenicity: The Issue of Late Postsurgical Recurrence
8:00-8:10 Introduction – Andre Palmini (Moderator)
8:10-8:35 SEEG Markers
8:35-9:00 Subdural Markers
9:00-9:25 Intraoperative ECoG Markers
9:25-9:50 Discussion

Parallel Session II
Invasive Indications in Temporal Lobe Epilepsies (Lesional/Non-lesional)
8:00-8:10 Introduction – Norman So (Moderator)
8:10-8:35 Lesional TLE: Pros and Con
8:35-9:00 Non-lesional TLE
9:00-9:25 Temporal Plus
9:25-9:50 Pseudo Temporal vs Pseudo Extratemporal

Parallel Session III
Measures of Cortical Connectivity
8:00-8:10 Introduction – Paul Ruggieri (Moderator)
8:10-8:35 Anatomic
8:35-9:00 MRI
9:00-9:25 MEG
9:25-9:50 SEEG/Subdural

9:50-10:05 Coffee Break

Parallel Session IV
Electrophysiologic Surrogate Markers of Epileptogenicity
10:05-10:15 Introduction – Richard Burgess (Moderator)
10:15-10:30 Interictal Patterns: Intraoperative ECoG
10:30-10:45 Interictal/Ictal Patterns: Subdural Grids
10:45-11:00 Interictal/Ictal Patterns: SEEG
11:00-11:15 Fast Oscillations
11:15-11:30 DC Shift
11:30-11:45 Direct Stimulation
11:45-12:00 Evoked Cortical Responses
12:00-12:15 Microelectrode Recordings

17:45 Adjourn
**Tuesday, October 5**

12:00 Adjourn
The Cleveland Clinic Epilepsy Surgery Symposium organizing committee invites meeting attendees to submit abstracts describing original epilepsy-related research.

The committee is also happy to announce the institution of the Cleveland Clinic Epilepsy Center Research Award. This award is offered to meeting attendees from within the United States and abroad whose abstracts provide a significant contribution to the Symposium’s general theme and the understanding of epilepsy mechanisms and treatments.

Five winners will be selected by the organizing committee. The winners will have their meeting registration fee waived and will be provided free accommodation in the meeting hotel’s headquarters, as well as the opportunity to present their data in a dedicated session and ceremony.

Our goal is to encourage young researchers in the field of epilepsy by providing them with an opportunity to showcase and discuss their results with experts in the field, and provide ground for further investigations.

All other accepted abstracts will be shown in a poster session.

The Third Dudley S. Dinner Distinguished Epileptologist’s Lecture

Dennis Spencer, MD

Dr. Spencer is the Harvey and Kate Cushing Professor and Chair of the Department of Neurosurgery at Yale University School of Medicine. He is a graduate of Washington University School of Medicine and completed his neurosurgical residency at Yale in 1977. He joined the Yale neurosurgery faculty following his residency, and became Chief of neurosurgery in 1987. He has an international reputation in the surgical treatment of neurological diseases causing epilepsy and developed a widely used neocortical sparing surgical approach for patients with temporal lobe epilepsy.

The primary focus of Dr. Spencer's clinical work is surgery for medically intractable epilepsy, seizure disorders associated with brain tumors, and pituitary tumors. Besides chairing the Department of Neurosurgery, he directs the Epilepsy Surgery and Pituitary Tumor Programs.

His research has brought together basic scientists and clinicians around a program concerning energetics, glutamate metabolism and the neurobiological study of human epileptogenic tissue. Study techniques include 4T MRS, C13 intraoperative glucose turnover studies, and in vivo and in vitro electrophysiology and microdialysis, immunohistochemistry, confocal and EM microscopy, and molecular biology. In particular, laboratory discoveries are correlated with the epileptogenic substrate in order to help define human epilepsy pathogenesis and potential therapies.

Dr. Spencer was the 1999 recipient of the American Epilepsy Society's Research Award in Clinical Investigation, and the 2006 Society of Neurological Surgeons’ Grass Award for Excellence in Research. He is past Chairman of the American Board of Neurological Surgery, Vice Chairman of the Neurosurgery Residency Review Committee, President of both the American Epilepsy Society (2008) and the Society of Neurological Surgeons (2007-2008), and he served as interim Dean of the Yale School of Medicine 2003-2004.

Dudley Dinner, MD (1947-2007) came to the Cleveland Clinic in 1979 as the first fellow in clinical neurophysiology and epilepsy and then joined the Epilepsy Section as staff neurologist and epileptologist. He played a leading role in establishing the epilepsy surgery program, evoked potentials and intraoperative monitoring. Dr. Dinner made many valuable contributions to understanding the usefulness of the intra-carotid amytal (WADA) test and the functional anatomy of the supplementary motor area cortex. He established and directed the sleep disorders center. Dr. Dinner published numerous scientific papers, invited reviews, editorials and chapters and also edited the book Sleep and Epilepsy. His vast knowledge and experience was a source of strength for both the epilepsy surgery and sleep programs at the Cleveland Clinic. He was very active in the American Clinical Neurophysiology Society and was Associate Editor of the Journal of Clinical Neurophysiology. His wisdom and kind, gentle spirit provided guidance and encouragement to patients, colleagues, epilepsy fellows and neurology residents.

General Information

Location
InterContinental Hotel and Bank of America Conference Center
9801 Carnegie Ave, Cleveland, OH 44106
Telephone: 877-707-8999 or 216-707-4100

A block of rooms has been reserved at the InterContinental Hotel at the special group rate of $189 per night plus tax. Reservations must be made by Friday, September 24, 2010 in order to qualify for this rate.

Information
For further information about this activity, contact Martha Tobin at
Local: 216-445-3449
Toll Free: 800-223-2273 x53449
Email: tobinm@ccf.org

Deadline for Registration and Cancellation
Register at www.ccfcme.org/epilepsy10. Deadline for registration for the symposium is 5:00 pm (EST), Monday, September 27, 2010. A request for a refund must be received in writing by September 27, 2010. No refunds will be given after September 27, but registration is transferable through October 6, 2010. A $50 cancellation fee will be deducted from the refund for all cancellations.

If you register by mail, please allow up to three weeks for your registration to be processed.

For questions about registration, please call 216-448-0777 or email cmeregistration@ccf.org.

Accreditation
For Physicians
The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this educational activity for a maximum of 38.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association Council on Continuing Medical Education for Category 2 credit.

Faculty Disclosure Statement
The Cleveland Clinic Foundation Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Commercial Support requiring resolution of all faculty conflicts of interest. Faculty declaring a relevant commercial interest will be identified in the activity syllabus.

Americans with Disabilities Act
The Cleveland Clinic Foundation Center for Continuing Education fully intends to comply with the legal requirements of the Americans with Disabilities Act. If you need assistance, please notify Martha Tobin at 216-445-3449 or tobinm@ccf.org at least two weeks prior to the activity.

Sunday, October 3, 2010
8:00-17:00 Ethics of Invasive Brain Testing: Limits and Responsibilities
Symposium Organizer – Paul Ford, PhD

This one-day symposium is intended to engage neurologists, neurosurgeons, psychiatrists, advance care nurses, physician assistants, and ethicists in addressing practical ethical challenges related to invasive brain testing. (See insert for full description.)
