OUR STAFF

Timothy Barnett, MD
Dr. Barnett earned his medical degree from The Ohio State University College of Medicine and Public Health in Columbus. He completed his residency at Fairview Hospital. His specialty interests include gastrointestinal surgery, breast surgery, thyroid/parathyroid surgery, laparoscopic surgery.

Brent Bogard, MD
Dr. Bogard earned his medical degree from University of Texas Health Science Center at San Antonio. He completed a general surgery internship and residency at Fairview Hospital. His specialty interests include laparoscopic antireflux procedures and the surgical treatment of hernias, thyroid and parathyroid disorders. Dr. Bogard also sees patients at the Westlake Family Health Center.

Kenneth Lee, MD
Dr. Lee earned his medical degree from the Case Western Reserve University School of Medicine in Cleveland. He completed a general surgery internship and residency at University Hospitals of Cleveland. His specialty interests include laparoscopic surgery, hernia repair, and gastrointestinal and breast surgery.

Andrew Smith, MD
Dr. Smith earned his medical degree from Loyola University Stritch School of Medicine in Chicago. He completed a general surgery internship and residency at Fairview Hospital. His specialty interests include laparoscopic surgery, hernia repair and surgery of the breast and gastrointestinal tract. Dr. Smith also sees patients at the Westlake Family Health Center.
Our staff of board-certified surgeons represents decades of expertise in providing a full range of general surgical care, including gastrointestinal, biliary, colon, breast and endocrine procedures.

When appropriate, our surgeons offer patients minimally invasive options, including laparoscopic antireflux and hiatal hernia surgery, cholecystectomy, hernia surgery, thyroid/parathyroid and colon surgery. Our expertise is reflected in the high volume of patients we treat—more than 1,500 in 2008 alone.

Conveniently located within a mile of Fairview Hospital located at the western edge of Cleveland, overlooking the Cleveland Metroparks, our staff provides cutting-edge expertise combined with caring consultations. Fairview Hospital has been serving the medical needs of Cleveland’s West Side for 110 years with a full range of services and 499 beds.

Fairview Hospital is a member of the Cleveland Clinic Health System (CCHS), a nonprofit, multispecialty academic medical center that integrates clinical and hospital care with research and education. CCHS is comprised of nine community hospitals and three affiliate hospitals in Ohio. U.S. News & World Report consistently names Cleveland Clinic one of the nation’s best hospitals in its annual “America’s Best Hospitals” survey.

Advanced technology distinguishes Fairview Hospital’s surgical program. Since performing their first laparoscopic surgery in 1989, Fairview has become a leader in minimally invasive surgery. Surgeons at Fairview Hospital were the first to perform minimally invasive surgery on Cleveland’s West Side, and the hospital was one of the first training centers for minimally invasive surgery.

Fairview’s Minimally Invasive Surgery Center is well equipped with the latest instrumentation, enabling our surgeons to perform the most sophisticated minimally invasive surgeries. Additionally, the latest advances in breast diagnosis and treatment are readily available, including stereotactic breast biopsy and surgical oncology.

For three years, Fairview Hospital was named one of the nation’s Top 100 Hospitals® by Solucient. The award identifies healthcare benchmarks and recognizes hospitals that demonstrate superior clinical, operational and financial performance in overall service. And, because Fairview Hospital is a Cleveland Clinic hospital, our general surgeons can easily collaborate with colleagues in every specialty area.
